The online application of the institution along with other related documents was carefully examined in terms of Section 14 (1)/15 (1) of the NCTE Act, 1993 the institution for transition from B.A. B.Ed. / B.Sc. B.Ed. - i. To ensure the successful delivery of the curriculum, the institution must upgrade and modernize the following facilities: Language Lab: Must be equipped with modern audio-visual software and digital communication tools; Chemistry Lab: Needs an upgrade with advanced apparatus, proper chemical storage and updated safety equipment; Zoology and Botany Labs: Both biological science labs require updated specimens, high-quality microscopes and modern research kits as per curriculum.
- ii. The distance between the two geographical locations, i.e., in the application and at the time of inspection provided, is approximately 6.08 kilometers. Application Location: (24.5754322, 81.3375053) — Situated near the Rewa Area. Inspection Location: (24.5943318, 81.393883) — Situated further east, near the Ajigarha or Panti area. The variation between these two sets of coordinates indicates a significant distance between the declared and inspected locations, suggesting that the institution may be operating from more than one geographically separated site. This constitutes a serious deficiency and raises concerns regarding compliance with regulatory norms, campus unity, and effective academic and administrative functioning.

- iii. Issues in verification of uploaded photos of the institute: The inspection team could not verify the pictures of the institute because the pictures submitted at the time of application were inaccessible. Due to this issue, visual confirmation of the institute's infrastructure and facilities could not be carried out.
- iv. Laboratory Facilities: The botany, chemistry, geography, and zoology laboratories were not equipped properly and were poorly maintained; no water facility or drainage system was there; The language laboratory did not have a single computer, and no language learning software was installed in their lab.
- v. Washrooms for physically challenged individuals were not appropriate because they were not spacious and not equipped with the necessary arrangements as prescribed by NCTE norms.
- vi. The library lacks essential encyclopedias and reference materials related to education. This deficiency limits academic support for both students and faculty.

**Therefore, the Committee decided that Show Cause Notice Post Inspection be issued to the institution thereby providing an opportunity for making representation through online transition application portal of NCTE, within 07 days along with all relevant supporting documents from the date of issue of Show Cause Notice.**
